

2010 Mabank High School Visit 18 May 2010

On Tuesday, 18 May, several of the club gathered at the Mabank High School Industrial Arts complex for our annual get-together with the students. The event was hosted by Mabank industrial arts teacher Leonard Eason. There were six As and Shorty brought his Model T.

Many of the students showed real interest and appreciation for our old cars. Some sort of proper encouragement could see them as Model A fans for years to come. Just need something to start them forward.
