President's Memo

Howdy Folks,

We're sure getting into pretty weather! Looking forward to scheduling some great tours in the next couple of months. If you have any suggestions for destinations, please do not hesitate to bring them up!

Wish I could be with you at the meeting, but duty calls, and I'll be in the city at a brief business conference.

Warm Regards,
Spencer Pennington

NAME AND PURPOSE

This club shall be known as the Cedar Creek Model A Ford Club, a non-profit organization, hereinafter referred to as the "Club."

The purpose shall be to maintain, preserve and restore the vehicle known as the Model A Ford (1928-1931) and all things pertaining to the Model A Ford, including literature, historical and technical information.

MEMBERSHIP

Application for membership shall be made in written form. Applications shall be filed with the Secretary and accompanied by dues for the current year.

RESTRICTIONS: All members of the Club shall be restricted to members of either the Model A Restorers Club or Model A Ford Club of America national clubs. Members may be accepted without ownership of a Model A Ford; however, no member shall be permitted to hold office unless said member has owned a Model A Ford within the six month period prior to the official election date.

DUES

The annual dues shall be fifteen dollars (\$15.00) per year. Dues are for the calendar year. The annual dues shall include member and wife and shall be payable before February 1st. Any member may be suspended by the Treasurer for non-payment of dues at the expiration of thirty (30) days from February 1st.

MEETINGS

Regular meetings of the members of this Club shall be held on the first Tuesday of every month unless said day shall fall upon a legal holiday, in which case the meeting date shall be established by the Board of Directors.

**MEETING
MINUTES**

**Cedar Creek Model A Ford Club
Monthly Meeting -February 6, 2024
Dairy Queen at Seven Points**

Spencer Pennington opened the meeting by leading us in the Pledge of Allegiance. There were no new members or guests present. The minutes from last month were accepted by Carolyn Vick and Miles Pennington. There was no financial report this month since the treasurer was absent.

SUNSHINE REPORT: Anna Hellebrand is now out of the wheelchair and moving around with the aid of a walker. But she did have to have 2 stents installed. Emma Pharris also had to have 2 stents installed. She is home and now doing well. Gerald is better but still not back to his old self.

BIRTHDAYS: John Shore

LUNCH: Instead of breakfast this month we will meet Friday the 16th at the Mabank Feed Store to try the barbecue.

NEW BUSINESS: No new business and no old business to discuss this month. And no one requested a tech session.

Miles Pennington made a motion to change the monthly breakfast from the 3rd Tuesday to the 3rd Monday of each month. Motion was seconded by Fredye Quain. So starting in March we will breakfast on the 3rd Monday.

Carolyn Vick made a motion to close the meeting and it was seconded by Jody. Meeting adjourned at 5:57 PM.

Respectfully submitted,
Barbara Quain in absence of Lou Carpenter

1. Several metropolitan areas in the US have highway sections during peak times designated as "HOV lanes." What does HOV stand for?
2. What adjective for less-than-full-size cars eventually had "sub" added to the front of the word and occasionally even has "micro" attached out front?
3. The Sentra, Altima, and Pathfinder are all car models made by what maker? ?
4. The world's first road made specifically for cars was paved in which of New York City's five boroughs?
5. Higher octane gas leads to less premature ignition which in turn reduces the rattling noise in cars most commonly known by what "K" term?
6. According to Motoring Research, what car series was the most popular in the world with over one million new registrations in 2018? Second place was the Toyota Corolla and third place was the Honda Civic.
7. In May 2003, the fastest known speeding ticket in US history was handed out, with a Swedish sports car allegedly going 242 MPH in a 75 MPH zone. Fittingly, in what state did this occur? I suppose everything's bigger, and everything's faster there.
8. What internationally-recognized car brand, commissioned in 1934 by the country's notorious leader, translates in English to "People's car?"
9. Although the technology has existed for at least 50 years, in the 2000s was the first time that efficacy and output increased enough in LED lights to be used in applications such as car headlights. What does LED stand for?
10. Described on its own website as "Trucker's Disneyland," the "World's Largest Truckstop" includes eight restaurants, a chiropractor, and a barbershop. The complex is located off of I-80 near Walcott in what state?

From the Editor

Surgery is over, and I am recovering slowly. Looking forward to being with you all again soon.

Please consider going to Texas Tour this year as I am the chairperson for this event. Some excellent history sites to see and some surprises. You ladies that have era fashions consider entering fashion display. This category allows you to display the clothes instead of wearing them. I will post the criteria in the next newsletter.

Spring is on us! Perk up everyone!

Update on Gerald Pharris. He had his surgery but still having problems.

Emma Pharris received two stents and is doing well..

Anna Hellebrand is on a walker now.

Please keep us informed of you health concerns.

We Care!

From the first signs of Spring to Daylight Savings, March is **a month full of new beginnings**. As the third month of the year, Nature begins to show off her colors in lively blooms.

BBQ

Barbeque Lunch on February 16th at the Mabank Feed Store

The club opted to have a barbeque lunch rather than a breakfast for the month of February.

There was a good turn-out!
It was good to see the Lees!

HERE'S A BIT OF HISTORY... Hours after Pearl Harbor was bombed on December 7, 1941, the Secret Service found themselves in a bind. President Franklin D. Roosevelt was to give his Day of Infamy speech to Congress on Monday, and although the trip from the White House to Capitol Hill was short, agents weren't sure how to transport him safely. At the time, Federal Law prohibited the government from buying any cars that cost more than \$750, so they would have to get clearance from Congress to do that, and nobody had time for that.

One of the Secret Service members, however, discovered that the US Treasury had seized the bulletproof car that mobster Al Capone owned when he was sent to jail in 1931.

They cleaned it, made sure it was running perfectly and had it ready for the President the next day. Al Capone's 1928 Cadillac V-8 "Al Capone" Town Sedan became the President's Limo in December, 1941.

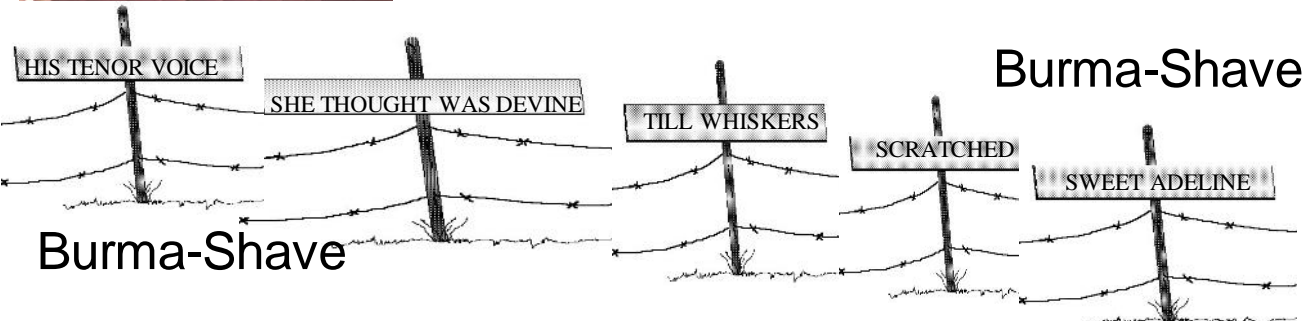

Mechanics are said to have cleaned and checked each feature of the Caddy well into the night of December 7th, to make sure that it would run properly the next day for the Commander in Chief.

And run properly it did. It had been painted black and green to look identical to Chicago's police cars at the time.

To top it off, the gangster's 1928 Cadillac Town Sedan had 3,000 pounds of armor and inch-thick, bulletproof windows.

It also had a specially installed siren and flashing lights hidden behind the grille, along with a police radio.

Here are a few more pictures that were in the original article. *Thanks Ric Bonnoront, for sending this article.*

Technical Tips

Adding an Electrical Master Cut-off Switch

BY BILL LEE

One aspect of the normal Model A that is troubling is that the electrical system is always "hot". In other words, there is always power in many places of the car with no easy way to shut it off. A modern car uses relays that close when the ignition key is turned on, and power elsewhere in the car is cut off when the key is off. Not so in a Model A.

Several articles have been written and the occasional thread on *Abogo* or *FordBarn* talk about adding an electrical shut-off switch for safety. One point of confusion is where it should be located; it **MUST** be in the ground line! Everybody (well, at least MOST) have a fuse that protects the ignition and lights etc., but what protects the starter? It's a frozen starter switch that can create a real bad day!

I added a switch, available from most all of the A parts suppliers, in the ground line of my A. I mounted it to a 3/32" sheet of aluminum that I cut to position the switch behind the cross member and just under the front edge of my seat. I wanted the switch where I could activate it quickly in emergency, and somewhere under the hood is NOT the answer. The pictures tell the story.

The switch was mounted so that it extended through the front edge of the center floor board on my A. That positions it at the back edge of the body cross member and just in front of the Emergency Brake Cross Shaft. Note that I had to make a small notch on the body cross member to give me clearance.

The switch in itself is too short to reach all the way through the floor board from its location. If you look closely you will see an extension I made: a piece of 1/2" aluminum barstock

drilled on one end to slip over the actuating shaft of the switch with a set screw in the side, and then shaped to allow the switch handle to be mounted up top. Its length was made to allow for the floor boards and carpet.

The switch was mounted to a piece of 3/32" aluminum sheet that I shaped to fit. It is attached to the bottom of the wooden cross member under the body cross member. The ground wires run from the battery to the switch (the black wire) and then from the switch to the frame (the red wire). There is also a ground wire from the transmission to the frame that you can see in the picture above.

With my seat set-back mounts, the switch is right under the front edge where it is very convenient to access without being in the way. 🙄

I did a little mechanics work today. I put a rear end in a recliner.
